ST. FIDELIS CHURCH
"Cathedral of the Plains"
Victoria, Kansas 67671

The Cathedral is 220' long, 110' wide at the transepts, 75' at the nave. Its ceiling is 44' above the ground. The seating capacity is over 1,000. An outstanding feature of the cathedral is the blending of classical lines of traditional Christian architecture with the simplicity of the pioneer West.
